Professional Summary

Licensed Civil Engineer with 3 years of experience in construction project support, cost estimating, quantity takeoffs, scope preparation, contractor coordination, and documentation management. Experienced in reviewing project requirements, preparing material and labor estimates, coordinating with contractors and vendors, and supporting residential construction and remodeling projects. Strong understanding of construction methods, materials, trade sequencing, and project costs, with additional experience in client communication, scheduling, and project tracking. Tech-savvy, detail-oriented, and quick to learn estimating and construction software, with the ability to work independently in a remote environment.

Work Experience

Virtual Assistant / Executive Assistant - Green City Design LLC | US Client
Remote | Feb 2026 – Aug 2026 | Independent Contractor (3-month contract extended to 6 months)
- Supported operations for a U.S.-based landscape design and construction company, maintaining project, client, and sales information in JobTread and Google Drive.
- Organized project documentation, proposals, invoices, client requirements, and construction-related records.
- Centralized client and design decisions, improving visibility across active projects.
- Converted client discussions and project decisions into structured JobTread records for accurate team follow-up.
- Maintained visibility across active projects by centralizing project updates, documentation, and next steps.

Freelance Research & Content Associate - Build.Breen | UK Client
Remote | Nov 2025 – Jan 2026 | Independent Contractor
- Produced decision-ready briefings on construction, architecture, sustainability, and bio-based materials from industry research.
- Built and maintained Notion knowledge systems for fast retrieval and monitoring.
- Converted research into newsletter/LinkedIn angles and managed content + events calendars to support consistent publishing.
- Asynchronously maintained operational systems (task tracking and monthly expense logs) to keep workflows organised and reliable.

Athena Executive Partner | US Client
Remote | Apr 2025 – Aug 2025 | Full-time
- Supported daily operations of a high-growth tech CEO, managing executive calendar, communications, and administrative tasks
- Implemented task-tracking workflows and documentation systems, improving deadline reliability and communication clarity
- Coordinated travel itineraries and high-level meetings, ensuring seamless execution across stakeholders and platforms
- Used tools like Coda, Slack, and Superhuman to manage digital tasks and ensure operational transparency in a remote-first company.

Civil Engineer – Department of Health Region VII
Cebu City | Oct 2024 – Mar 2025 | Full-time
- Produced cost estimates and assisted in budget tracking for 10+ government infrastructure projects, ranging from PHP 1M to 50M
- Handled contract documentation, including time extensions and variation orders, improving implementation accuracy and compliance.
- Facilitated monthly progress assessments, enabling a 20% improvement in project delivery through calibrated reporting and stakeholder feedback
- Maintained digital documentation systems using Excel and Google Workspace to support cost and schedule transparency

Freelance Virtual Assistant/ Takeoff Specialist - Brand Construction | US Client
Remote | Jan 2023– Feb 2024 | Full-time
- Prepared detailed construction quantity takeoffs and cost data using Bluebeam Revu, AutoCAD, Microsoft Excel, and Trimble Business Center (TBC).
- Reviewed construction drawings and project information to identify quantities, scope requirements, and estimating inputs.
- Organized takeoff documentation and supporting project files for efficient estimator and management review.
- Maintained accurate project records, reports, and estimating data across multiple assignments.
- Supported the company owner with project coordination and administrative tasks alongside estimating responsibilities.

Education

Biliran Province State University
Bachelor of Science in Civil Engineering (2018–2022)

Certifications & Achievements

- Licensed Civil Engineer – PRC Reg. No. 0208485 (Issued: June 2024)
